Work Experience

2013 – 2018 – Principal of the Elementary School “Hameginim” (The Guards), Holon.

During the years of my work as principal, I initiated many projects in the school, with collaborations with various parties.

- I established a large learning garden in the area of the school, Butterfly Garden, Research Greenhouse and more. In the garden all the school pupils are partners of growing of vegetables and flowers, the pupils grow flowers that attract butterflies and study and butterflies that come. In the greenhouse the pupils conduct experiments of the influence of light / shadow / heat / cold and different quantities of water on the plants, as well as the interactions between the plants in the garden. The garden also serves as therapeutic garden for children with special needs.
- I established “a green studio” in the school, in which the pupils write, photograph and produce short videos about diverse topics and transmit them to the classrooms. In the plan for the next year online broadcast for classrooms during which the pupils will have the possibility to react.
- I established “Hameginim Radio” (“The Guards Radio”) – The children wrote and transmit for the school pupils.
- I joined the school to world globe program for investigation of the weather and climatic phenomena, as part of which there were created collaborations with various schools in the country and from the variety of sectors in the society and in the world and we even won various prizes of the creativity and the digital game on the issue of clouds identifying.
- I participated in “Mifras” (“Sail”) for entrepreneur principals, as part of which I developed with the teaching staff the project “dream, shape and create opportunities”, for development of the sense of capacity of the teachers and the pupils in the school and promotion of the educational achievements. The project worked in two main channels:

- Development of environments and new learning spaces and development of new teaching/learning methods. Among other things we “adopted” the “spacious learning environment”, which was developed in England. The method is taken from the neuroscience research in order to develop the long-term memory, which is the basis for learning. My school was become the school which leads and displays the method, and in several opportunities we appeared in the Television in the context of the method.
- 1997 – 2002 – Teacher, educator, deputy of the principal of “Shizef” School, Or-Yehuda.
- Among my initiatives in the school: “Mediating Pupils” program – for resolution of conflicts between the children and program for violence prevention – with collaboration with specialized students from the faculty of law in Bar – Ilan University.
- 1988 – 1993 – Educator teacher in “Shivat Zion” (“Return of Zion”) Elementary School – Or-Yehuda.

Education:

- 2000 – M.A. – Bar – Ilan University, Political Science with Specialization of Journalism and Public Media, I studied course Governance and Politics, Mass Media, Israeli Politics and more.
- 1995-1997 – Certification Studies in the Journalism and Communication Studies Unit in the Faculty of Social Sciences, Bar – Ilan University. As part of the studies I was active in Community Television Channel, I investigated the changes in the perception of the “Sabar (who born in Israel) Image” in the Israeli cinema movies from their beginning to the movies which were produced in the 1980s.
- B.Ed. (B.A.) – Kibbutzim Seminar College – 1988.
- Teaching Certificate – Kibbutzim Seminar College of Education – 1984-1987 – in the course of middle schools with Specialization of Israeli Nation History and General History.
- High School: Emek Hefer Regions – “Ruppin”, Matriculation Certificate.

Languages:

- Hebrew – Native Language.
- English – Good (Speaking, Reading, Writing).

Computer Skills –

- Complete domination of Office Applications.
- Word, Excel, Power Point.
