ABOUT ME

I possess strong analytic skills and high learning ability. Beyond statistics, I have studied mathematical logic and programming and now I am working on my PhD on mathematical logic. I am a curious person, I am interested in various subjects like psychology, art, philosophy, sociology. I enjoy working in a team, but I also work well independently.

I have advanced knowledge in statistics, where I am proficient in advanced topics like Multiple regression, SEM, Factorial analysis (all of them applied in research) and programs like JASP, SPSS.
